

DIAMOND BLADES FOR CONCRETE & ASPHALT

We stock an extensive range of high quality diamond blades; for hand saws and floor saws.

CONCRETE

Fast cutting blade, best option for **concrete** and can still be used for some asphalt work if required. Positioned diamond make for faster cutting and better life for the blade.

Handsaw Diameter	Concrete
300mm	1110246
350mm	1110261
400mm	1110266
Floorsaw Diameter	Concrete
300mm	
350mm	1110166
400mm	1110171
450mm	1110176
500mm	1110181

A concrete blade can cut reinforcing, but is not designed to cut thick reinforcing bars

ASPHALT & GREEN

Asphalt is highly abrasive and soft, it requires a quality blade with a hard bond and good ability to clear the diamond. Our specialist blades cut fast, clear well and have a good life.

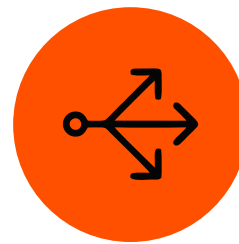

Handsaw Diameter	Asphalt
300mm	1110196
350mm	1110271
400mm	
Floorsaw Diameter	Asphalt
300mm	1110156
350mm	1110161
400mm	

An asphalt blade will not cut reinforcing

Use an asphalt blade for green concrete

MULTI

Concrete and asphalt are different. It is hard to have one blade that works for both. The best option is to have a specialised blade for each. The next best option is this blade which will do a good job of both.

Handsaw Diameter	Multi
300mm	
350mm	171218
400mm	171219
